

MIZBAUR RAHMAN ZIHAD

Junior MERN Stack Developer | Next.js | Node.js | TypeScript | AI-Assisted Development
Sylhet, Bangladesh | +8801865662482 | zihad.pilot18@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

I am a passionate web developer aiming to grow into a full-stack and backend developer, continuously exploring modern technologies along the way. I aspire to contribute to impactful projects in the tech industry while expanding my skills in system design and scalable architecture. In the long term, I plan to venture into AI and Machine Learning, which aligns naturally with my academic background in Mathematics.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, TypeScript, React.js, Next.js, responsive design

UI / Styling: Tailwind CSS, DaisyUI, HeroUI, Framer Motion

Backend / MERN: Node.js, Express.js, MongoDB Atlas, PostgreSQL, NeonDB, REST API, CRUD operations, JWT, Better Auth, Bcrypt, Modular Architecture, RBAC

Forms / Data: Context API, Request validation, query filtering, data sorting, protected routes, error handling

Tools / Deployment: Git, GitHub, VS Code, Vite, npm, Postman, Figma, Vercel, Netlify, Render

AI Workflow: ChatGPT, Gemini, Claude, Antigravity, AI-assisted debugging, documentation support, prompt engineering

Soft Skills: Logical reasoning, Problem Solving, growth mindset

PRACTICAL EXPERIENCE

Complete Web Development Course – Programming Hero | Jan 2026 – Jun 2026

- Completed extensive project-based training covering full-stack JavaScript, React, Node.js, Express, MongoDB, secure deployment, and version-controlled Git workflows.
- Developed production-ready frontend and full-stack projects featuring protected router states and smooth user authentication flows.

Next Level AI-Driven Software Engineering Bootcamp – Programming Hero | Apr 2026 – Present

- Mastered TypeScript foundations, advanced types, data constraints.
- Engineered modular servers using Node.js event-driven architecture, raw SQL routing pools, and serverless PostgreSQL via NeonDB.

TECHNICAL PROJECTS

SportNest – Sports Facility Booking System | [Live](#) | [Client GitHub](#) | [Server GitHub](#)

Tech Stack: Next.js, Tailwind CSS, HeroUI, Node.js, Express.js, MongoDB, Better Auth, JWT

- Built a full-stack facility reservation platform featuring real-time searching, category filters, loading states, and custom scroll animations.
- Implemented backend booking collision-checking algorithms to prevent duplicate reservations on identical slots, facility IDs, and selected dates.
- Integrated Google OAuth and email login via Better Auth with secure CRUD endpoints.

SkillSphere – Online Learning Platform | [Live](#) | [GitHub](#)

Tech Stack: Next.js (App Router), Tailwind CSS, DaisyUI, HeroUI, BetterAuth, MongoDB Atlas

- Developed a responsive multi-page course portal utilizing Next.js server-side architecture alongside MongoDB Atlas data fetching.
- Protected sensitive course curricula and student account details by building Next.js private routes synced with BetterAuth session verification.
- Integrated automated feedback components including global toast notifications and smooth interface transitions to lower page bounce rates.

DevPulse – Internal Tech Issue & Feature Tracker | [Live](#) | [GitHub](#)

Tech Stack: Node.js, TypeScript, Express.js, PostgreSQL, NeonDB, Raw SQL, JWT, Bcrypt

- Engineered a RESTful backend API in TypeScript, utilizing raw SQL connection pools to manage engineering teams' bug logs and requirements.
- Constructed dual-layer auth systems deploying brief JWT access tokens paired with long-lived refresh tokens hidden inside secure HTTP-only cookies.
- Set up global error handling middleware alongside role-based access controls separating Contributor and Maintainers actions with custom query parameter filters.

EDUCATION

B.Sc. in Mathematics (3rd Year) – Shahjalal University of Science and Technology (SUST), Sylhet | 2023 – Present

- Core Focus: Analytical Problem Solving, Discrete Mathematics, Logic Optimization, Algorithms.

CERTIFICATIONS & LANGUAGES

Certifications: Complete Web Development with MERN Stack – Programming Hero (2026, Pending); Next Level Software Engineering Certification (Ongoing).

Languages: Bangla – Native; English – Intermediate Professional Working Proficiency, comfortable with technical documentation, code reviews, and developer communication.
